

PRESS RELEASE

LIGHTEVENT'S technical support convincing at CPD

Full service for fashion show in Düsseldorf

For a repeated time, Light Event Veranstaltungstechnik GmbH of Cologne provided full technical support for the exclusive fashion shows at the CPD in Düsseldorf, hosted by Igedo. The company was in charge of the technical realization in 4 halls and at the After Show Party of this international trade show for womenswear and accessories. Technical support for the event, which is one of the most important and biggest international fairs in the industry, was provided at the catwalk, and by stage setup, lighting, sound and the live-on-tape production.

Each designer and each show called for an individual ambiance, either in the big press gallery of the Fashion Theatre, on the Body Look Show stage or on the catwalk of the Fashion Gallery. To assure a unique atmosphere for each presentation LIGHTEVENT customized lighting installations and implemented numerous light projections that could be changed without long or expensive alteration measures.

LIGHTEVENT managing director Klaus Schmitt: "We are happy about the ongoing confidence that the Igedo Company has been giving us"

Light Event Veranstaltungstechnik GmbH was founded in 2001 by Klaus Schmitt, an accomplished executive producer and experienced lighting technician specialised in theatre. LIGHTEVENT provides lighting, PA, stage and media technology for companies as well as cultural events nation-wide. The company looks after presentations at tradeshows, corporate events or stage shows and is in charge of the technology maintenance and service of several event locations.
