

PRESS RELEASE

LIGHTEVENT new contractual partner of Palladium and E-Werk in Cologne

LIGHTEVENT and Köln Event Veranstaltungsgesellschaft mbH will be contractual partners with immediate effect. LIGHTEVENT will take care of technical maintenance and services for venues like the Palladium in Cologne. In the past, the spacious site has hosted famous guests like Robbie Williams, Amy Winehouse and Coldplay. It is also used for galas, congresses, conventions, product launches, car presentations, film premiers, TV productions and trade shows.

Another site held by Köln Event is the listed E-Werk with its Europe-wide reputation as multifunctional event centre not only for concerts and events.

Both top venues are located in close proximity to LIGHTEVENT'S head office in Cologne-Mühlheim, a neighbourhood where a lot of media companies have settled. This allows LIGHTEVENT to cooperate closely with the event organisers and respond without delay to their needs and requirements.

Light Event Veranstaltungstechnik GmbH was founded in 2001 by Klaus Schmitt, an accomplished executive producer and experienced lighting technician specialised in theatre. LIGHTEVENT provides lighting, PA, stage and media technology for companies as well as cultural events nation-wide. The company looks after presentations at tradeshows, corporate events or stage shows and is in charge of the technology maintenance and service of several event locations.
