LIGHTEVENT brought Caribbean Flair to Cologne – 360 degree projection in International Expocentre Cologne

LIGHTEVENT took care of all technical issues at temporary employment agency Tuja's Christmas party. The event of the Ingolstadt based company, which had the motto "Pirates", was organized by consulting agency In-Team and held in the Expo XXI in Cologne. The highlight of the event was the 360 degree projection featured by LIGHTEVENT.

In order to create a real Caribbean atmosphere LIGHTEVENT projected an island with seascape on a white fabric screen of 205m x 5m. For this soft edge panorama projection 28 projectors Panasonic PT-D 5700 with 6000 ansi-lumens each were used on this screen measuring more than 1000 square meters in total.

The video Jockey impressed the 700 costumed guests with striking scenery images and got the "Pirates" rocking to the music of live performing band "Me and the Heat". Apart from the video projection LIGHTEVENT was responsible for the evening's complete technical requirements and also took care of rigging, lighting and sound.
